

ILMA LubeCare® Workshop Program

September 17, 2003 • Sheraton International Hotel • Baltimore, MD

8:30 am – Greetings and Continental Breakfast

9:00 am – Introduction: What is Product Stewardship?
Carl Druiz, Ciba Specialty Chemicals – Meeting Moderator

9:15 am – Establishing a Product Stewardship Program is Not as Hard as You Think!

Ross Holgado, Houghton International Inc.
Goal: Examination, evaluation, and collaboration of your existing programs.

An ILMA member discusses how you may be further ahead in your product stewardship program than you think. How to take your current programs, organizing and developing them a few steps further.

9:30 am – How Did I Start Our Product Stewardship Program?

Cathy Novak, Eastern Oil Company
Goal: How far has Eastern come in accomplishing its goal and how much further does it have to go?
Addressing PSP from the perspective of a smaller ILMA member company, Novak will discuss why and when she became interested in the program as well as how she generated interest from her management team and gained their support.

Elements of LubeCare®: Identifying the Five Management Practices Associated with LubeCare® Implementation

9:45 am – Management Commitment

Ike Tripp, Etna Products, Inc.
Goal: Defining the need for management commitment.

10:15 am – Product Design

John Cutcher, D.A. Stuart Company
Rich Kraska, Lubrizol Corporation
Goal: How to get control of critical information and use it to communicate hazard information to customers and ultimately, to design safer products.

11:15 am – Break

11:30 am – Management of the Manufacturing Environment

Carol Poole, Quaker Chemical Corporation
Goal: Discover how and where to find specific information to meet your OSHA, EPA, DOT regulatory requirements and use them in accordance with good environmental health and safety practices.

12:30 – 1:30 pm – Lunch

1:30 pm – Customer Outreach and Education

Eugene White, Milacron Marketing Company
Goal: Communicate appropriate health, safety, and environmental considerations and management practices to customers.

2:30 pm – Accountability and Performance Evaluation

Jeffrey L. Leiter, Esq., Law Office of Jeffrey L. Leiter
Goal: Review performance of product stewardship program and evaluate relevant new information to identify opportunities for continuous improvements.

3:15 pm – Break

3:30 pm – Quality, EMS, Responsible Care Program, Integration

Carl Druiz, Ciba Specialty Chemicals
Goal: Learn how your already existing programs relate, integrate, and collaborate with the product stewardship commitment.

4:15 pm – FAQs and Discussion

5:30 pm – Program Concludes

ILMA LubeCare® Workshop

What is LubeCare®? LubeCare® is a program developed by ILMA to help member companies integrate health, safety, and environmental considerations in the design, manufacture, use, and disposal of lubricant products. LubeCare® is a single program that identifies five management practices.

This workshop will discuss the five management practices and provide examples of how two different ILMA member companies began

the evaluation and implementation process.

LubeCare® provides a systematic, holistic framework to assist member companies in managing their health, safety, and environmental responsibilities. Implementation can benefit your bottom line by helping you manage workplace safety and health, insurance claims, liability risks, customer relations, pollution prevention, and product development.

Wednesday, September 17, 2003

Sheraton International Hotel

BWI Airport, Baltimore, MD

The Sheraton International Hotel is the only hotel located on the BWI airport grounds, approximately 800 yards from the terminals. Free parking, 24-hour complimentary shuttle service to and from BWI airport terminals, Amtrak and MARC train station and the Light Rail servicing the Inner Harbor is available. Michener's Restaurant offers a continental style menu for breakfast, lunch, dinner and room service daily. Ask for the corporate discount rate of \$169/double occupancy (rate not guaranteed).
