

Robert Blithe
Houghton International, Inc.

Bob Blithe has many years of industrial experience dealing with emulsion chemistry, working specifically with emulsion lubrication properties and emulsion control. Bob received his M.S. in Organic/Analytical chemistry from St. Joseph's University in Pennsylvania and has been employed by Houghton International for 20 years as a research chemist, working in market applications that deal with emulsion chemistry. He has spent time working within the Pulp & Paper industry, the Aluminum Rolling market, the Wire Drawing market, and the Metalworking market.
