

**Dr. Jean Dasch**  
**General Motors R&D Center**

---

Dr. Jean Dasch is a Technical Fellow at General Motors R&D Center in the Chemical and Environmental Sciences Laboratory. She received her PhD from the University of Maryland in Nuclear and Atmospheric Chemistry followed by a Post-doctoral fellowship at Argonne National Laboratory. She has worked at GM for more than 25 years in the Environmental area. For the last 12 years, she has worked in the area of machining, specifically in methods leading toward clean machining and dry machining.
