

**Dr. Robert D. Evans**  
**Quaker Chemical Corporation**

---

Dr. Robert Evans is a Research Scientist in Quaker Chemical Corporation's Metalworking Division Laboratory. He has worked for 30 years in the research and development of industrial metalworking lubricants and rust preventives. He has earned his BS degree from The Pennsylvania State University, and obtained a master's degree and his Ph.D. in organic chemistry from Villanova University. His primary research focus has dealt with the tribological and machining properties of industrial fluids.

Bob is an active member of the American Chemical Society's (ACS) Division of Organic Chemistry, the Society of Tribological and Lubrication Engineers, and the Association of Iron and Steel Engineering. He has authored numerous articles for scientific publications and has obtained six US patents.
