

Douglas Hunsicker
Caterpillar Inc

Doug Hunsicker graduated from Bradley University in 1969 with a Bachelors Degree in Chemistry. He has worked for Caterpillar for 39 years, of which 34 have been in the East Peoria Met Lab (involved with metalworking fluids) – the remaining 5 years were with the S•O•S Lab developing an engine coolant analysis program. He is currently Caterpillar's Technology Steward for Process Fluids and Corrosion. Doug is a past chairman and is on the Board of Directors of the Central Illinois STLE section and has served as chairman of the Fluids For Metalworking Section and on the Board of Directors of the National STLE. He or members of his group have been involved in the MWF Training course at the Annual Meeting since 1987. He is currently a member of STLE's MWF Steering Committee and their MWF Education & Training Subcommittee and he is a member of SAE's Industrial Lubricants Committee. He was the 2005 recipient of STLE's Vic Joll Award.
