

Arnold Legzdins
Troy Chemical Corporation

Arnold Legzdins is a Technical Support Manager for Troy Corporation in the Metalworking Fluid Additives Division. Arnold received his Ph.D. in Chemistry from McMaster University in 1996 and has spent 12 years in the oil and additives industry. He first joined Petro-Canada at its Lubricants Research & Development Centre in Mississauga, Ontario. He later joined Troy Corporation in Concord, Ontario. Arnold is a member of the STLE and the American Chemical Society. His current work involves product development and technical support of Troy's product line of bactericides, fungicides and defoamers for metalworking fluids.
