

Dr. Henry B. Lick
Safety and Health Solutions, LTD

Dr. Henry B. Lick has over 45 years experience as a health, safety and environmental professional. During his 32-year career at the Ford Motor Company, Dr. Lick held several management and health and safety assignments. In his last assignment at Ford as Manager, Occupational and Environmental Health Sciences, Dr. Lick developed a first of its kind partnership between OSHA, Ford, and the UAW.

Dr. Lick has held previous positions as the President of the American Industrial Hygiene Association (AIHA), he is a Member and a past Chairman of the National Advisory Committee on Occupational Safety and Health (NACOSH), a member of OSHA Metal Working Fluids Standards Advisory Committee, Chairman of the American Automotive Manufacturers Association Occupational Safety and Health Committee, Chairman of the Wayne State University Occupational and Environmental Health Advisory Board, a member of the University of Michigan, School of Public Health Advisory Committee, a Past member of the U.S. BLS Business Research Advisory Committee (BRAC), and the Organizer/Chair of the ANSI B11 Machine Tool Ventilation Committee

In 1996 Dr. Lick was awarded Michigan Safety Professional of the Year, and in 1998 he was the AIHA Donald E. Cummings Award winner. He is a Hall of Fame inductee and Member of the Safety Council for Southeastern Michigan, and in 2006 won the Distinguished Alumni Award from the Wayne State University, College of Pharmacy and Allied Health.

Dr. Lick's further activities have included presentations in the U.S. and Canada on several health, safety and management topics including oil mist control/metal working fluid management, ergonomics, indoor air quality, employee involvement and Total Quality Management Systems in health and safety.
